## **SECTION B - SUPPLIES OR SERVICES AND OFFEROR'S PRICES**

The United States District Court for the Eastern District of Missouri is soliciting a vendor to provide substance abuse and/or mental health treatment services. A Vendor must be capable of providing services within a geographic area encompassing St. Louis City and St. Louis County.

As a result of this solicitation the Government intends to enter into a Blanket Purchase Agreement (BPA). For this BPA, approximately 1 to 3 vendors are needed to provide the required services. The Government reserves the right to award to a single vendor.

A Blanket Purchase Order is a "charge account" arrangement, between a buyer and a seller for recurring purchases of services. BPA's are not contracts and do not obligate government funds in any way. A contract occurs upon the placement of a call or referral from the Probation/Pretrial Services Office and the vendor's acceptance of the referral. Referrals will be rotated among all vendors on the BPA. BPA's are valid for a specific period of time, not to extend beyond the current fiscal year. The total duration of this BPA, including the exercise of two 12-month options, shall not exceed 36 months. BPA's will be issued to those vendors determined to be technically acceptable and offering the lowest cost to the Government, using the Evaluation Criteria established in Section M of the Request for Proposal.

The following pages of Section B contain only those Required Services being solicited by the U.S. Probation/Pretrial Services Office for this solicitation. Offerors failing to provide offers on all Required Services listed will be considered technically unacceptable.

Note: Estimated Monthly Quantities (EMQ's) represent the total monthly quantities to be ordered per service item under the BPA. Each vendor placed on the BPA may receive a share of the total quantity stated. However, EMQ's are estimates only and do not bind the government to meet these estimates.

An asterisk \* indicates a requirement line item which has been modified under "Local Services".

## **SECTION C. DESCRIPTION/STATEMENT OF WORK**

### **PROVISION OF SERVICES**

The United States Probation and Pretrial Services Office (hereafter USPO/USPSO) or Federal Bureau of Prisons shall provide a Program Plan (Probation Form 45 or Transitional Services Program Plan BP-S530.074) for each defendant/offender that authorizes the provision of services. The vendor shall provide services strictly in accordance with the Program Plan for each defendant/offender. The Government shall not be liable for any services provided by the vendor that have not been authorized for that defendant/offender in the Program Plan. The United States Probation Officer, United States Pretrial Services Officer, and the Bureau of Prisons staff may provide amended Treatment Program Plans during the course of treatment. The United States Probation/Pretrial Services Office, and the Bureau of Prisons will notify the vendor verbally and in writing when services are to be terminated and shall not be liable for any services provided by the vendor subsequent to the verbal or written notification.

### **INTRODUCTION**

- a. The Director of the Administrative Office of the United States Courts (AOUSC) has delegated authority to award a Blanket Purchase Agreement to fulfill his responsibility under the Contract Service for Drug Dependent Federal Act of 1978, (Public Law No. 95-537 and Public Law No. 98-236) and under the Pretrial Services Act of 1982 to provide services for federal offenders. The AOUSC reserves the right to require the vendor to provide services under this agreement to clients supervised by the United States Pretrial Services Offices, to pretrial clients being supervised by probation offices, and to inmates of the Federal Bureau of Prisons residing at federal or contract community centers under the terms and conditions of this agreement. Where services are provided for pretrial services or to inmates of the Federal Bureau of Prisons, the vendor shall submit separate invoices for such services provided to the referring agency.
- b. The services to be performed are indicated in Section B. The minimum performance standards are contained in Section C, E, F, and G of this agreement. The vendor shall perform all services indicated in Section B of this agreement.
- c. The government will refer clients on an "as needed basis" and makes no representation or warranty that it will refer a specific number of clients to the vendor for services.

**Drug/Testing Urinalysis:**

Under the traditional drug testing model, urine specimens are collected locally, either by the officer in the office or in the field or by local services providers under contract, and then either sent to the national drug testing laboratory under contract with the AOUSC, or to the on-site laboratories located within selected probation and pretrial offices.

The results from on-site testing are to be sent to the national drug testing laboratory for GC/MS confirmation only if the result is positive and such result subjects the defendant/offender to possible imprisonment and either the results are contested due to the accuracy of the results or there is some other reason to question the results of the test.

Except where geographical considerations make it prohibitive for a defendant or offender to come to the office on short notice, random testing should be done by the officer rather than the contractor, and rarely should it be included as part of a treatment plan.

**1. Urine Collection, Instrumented Testing and Reporting (1010)**

The vendor shall perform the following procedures related to the collection, testing and reporting of urine specimens:

**a. Storage of Urinalysis Supplies**

The vendor shall:

- (1) Store all urinalysis supplies in a secure area with access limited only to authorized vendor employees involved in the collection process.
- (2) Prevent defendant/offender access to the secure storage areas.

**b. Secure Collection Area**

The vendor shall:

- (1) To the extent possible provide a lavatory only for collecting urine specimens that is not used by staff or others not providing a urine specimen.

- (2) Remove soap dispensers and cleaning agents from the lavatory.
- (3) If the lavatory is used by others not providing a urine specimen the vendor shall:
  - (a) Eliminate the possibility of any interference with the collection process or adulteration of the specimen; and
  - (b) Limit access during the collection process to only those involved in the collection of urine specimens.
- (4) Where feasible, remove the hot water supply to prevent defendants/ offenders from diluting specimens with hot water that could simulate the temperature of voided specimens.

c. **Safety Precautions.**

The vendor shall ensure that all personnel handling urine specimens wear disposable gloves designed for protection against physical hazards, and are familiar with standard precautions for handling bodily fluids.

d. **General Urine Specimen Collection Procedures**

- (1) The vendor shall ensure defendants/offenders:
  - (a) Remove jackets, coats and large pocket items before entering the collection area.
  - (b) Leave purse or other carried items outside the collection area, or in the control of the specimen collector.
  - (c) Rinse their hands in cold water and thoroughly dry them prior to voiding to remove any adulterant from under the fingernails or on the skin.
  - (d) Roll up long-sleeved shirts or blouses so the collector can examine defendant/offender's arms to detect tampering devices or adulterants.
- (2) The vendor shall ensure that the collectors:
  - (a) Collect specimens from only one donor at a time. Both the donor and the collector shall keep the specimen bottle/container in view at all times prior to it being sealed and labeled.
  - (b) Complete a Chain of Custody or NIDT Collection Form before a defendant or offender voids following chain of custody procedures, and then, unless the vendor is using an NIDT that yielded a negative result, peel the Barcode label from the Chain of Custody form and place it on the bottle.
  - (c) Collect a bottle of urine with a minimum of 35 milliliters of urine, but no more than 3/4 full, to allow the laboratory to conduct the initial presumptive screen and confirmation tests. **A specimen with less than 10 milliliters of urine is not acceptable for testing and**

**shall not be submitted** as the laboratory will not test it due to insufficient quantity.

- (d) **Not** flush urinals until the collection is completed and the defendant/offender has left the urinal area (coloring agent is not necessary).
- (e) Observe for any indication (unusual color, odor) of specimen dilution and/or adulteration.
- (f) Screw the top of the bottle or ensure the defendant or offender tightly screws the top on the bottle, and that the top is secure to the bottle and is not leaking.
- (g) Review(s) the temperature of the specimen to determine if it is near body temperature, if applicable.
- (h) Attach the security seal/evidence tape across the top of the bottle cap and down the sides of the bottle, and initials the evidence tape to indicate the identity of the specimen. (This procedure is not mandatory for NIDTs when an instant negative result is obtained and no further testing will be done on that sample).
- (i) Sign the Specimen Collection Statement of the Chain of Custody Form. This is not mandatory for NIDTs when an instant negative result is obtained and no further testing will be done on that sample.)
- (j) Have the defendant or offender sign or initial the Chain of Custody Form. This is not mandatory for NIDTs when an instant negative result is obtained and no further testing will be done on that sample.

If the test(s) is/are negative the vendor shall:

- (1) Discard the test device (test device is not considered biohazardous waste and can be disposed of in the trash **(unless visibly contaminated with blood)**). The vendor shall check and follow local state requirements on disposal of NIDT devices.
- (2) Discard urine specimen. Urine specimen may be flushed down the toilet. Rinse the emptied bottle. It is not considered biohazardous waste and can be disposed of in the trash.

e. **Observed Urine Specimen Collection Procedures**

The vendor shall:

- (1) Directly observe defendants/offenders voiding into a specimen collection container. Collectors observing the voiding process shall be the same sex as the defendant/offender providing the specimen (**no exceptions**).
- (2) The use of mirrors is acceptable if the mirrors aid the collector in viewing the voiding process. The USPO/USPSO must approve such use of mirrors.

f. **Unobserved Urine Specimen Collection Procedures**

The vendor shall perform the following urine specimen collection procedures if circumstances prevent the observed collection of a specimen.

The vendor shall ensure that collectors:

- (1) Take unobserved specimens **only** when the defendant/offender and the collector are not of the same sex or it is virtually impossible to collect an observed specimen (e.g. where circumstances beyond the control of the collector preclude the collection of an observed specimen).
- (2) Clearly document on the Chain of Custody Form or NIDT Collection Form any unobserved collection.
- (3) When using NIDTs for unobserved collection of a specimen, ensure that an adulteration test is performed that at a minimum includes temperature, pH and specific gravity tests. Adulteration test panels are performed on all specimens sent to the national laboratory for testing.
- (4) Use a temperature strip to measure urine specimen temperatures which should range between 93.4 to 100 degrees Fahrenheit. The time from urination to temperature measurement is critical and in no case shall exceed 3 minutes.
- (5) Obtain a second specimen from defendants/offenders whose urine specimen temperatures are outside the range in (4) above.
- (6) Place a blue or green colored toilet bowl cleaner or coloring agent in the commode to deter dilution of the specimen with commode water.
- (7) Pour the coloring agent into the bowl when using commodes without holding tanks (e.g., commercial commodes).
- (8) Follow all general collection procedures in subsection d above.

g. **Urine Specimen Mailing and Storage** (For specimens mailed out to contract national drug testing laboratories or on-site instrumented drug testing laboratories).

The vendor shall ensure that:

- (1) The collector places the specimen and corresponding Chain of Custody Form or NIDT collection form in the approved shipping container and places such container in the custody of an approved delivery service or courier; **or**
- (2) The collector notifies the delivery service or courier pickup of urine specimens to be delivered to the laboratory (must be **no later than** the close of business on the day the specimen is collected).
- (3) Urine specimens are refrigerated if specimen is retained and not shipped the same day.

- (4) Refrigerated urine specimens are not retained **longer than** 72 hours before they are sent to the laboratory.
- (5) Refrigerated urine specimens are stored in a secure area or locked refrigerator with access limited only to collectors or other vendor authorized personnel.

h. **"No Test" Policy**

The urinalysis laboratories under contract with the AOUSC **will only test** urine specimens if all of the following conditions are met.

- (1) The specimen contains no less than 10 milliliters of urine.
- (2) The specimen security seal or tamper evident seal is present and intact.
- (3) The specimen bar code label is present.
- (4) The specimen is accompanied by the Chain of Custody Form.
- (5) The specimen identifier (i.e., bar code number) on the bottle is identical to the number on the Chain of Custody Form.
- (6) The collector's signature is on the Chain of Custody Form.

When any of the above conditions are not met, "No Test" will be stamped on the request report form and the reason for the no test will be checked or written in the space provided. Specimens that cannot be tested will be discarded. The vendor shall ensure that **all** of the above conditions are present for specimens sent to the national and/or on-site drug testing laboratories for testing.

i. **Random Urine Specimen Collection Procedures**

The vendor shall provide random urine specimen collections in accordance with the following:

- (1) **Urine Collection Phases**  
The frequency of testing for defendants /offenders shall follow the Three Phase Program, which requires a minimum of three (3) random tests with less than 24 hours notice per month during Phase I; a minimum of two (2) such tests monthly during Phase II; and a minimum of one (1) such test during Phase III. The length of these phases is determined by the USPO/USPSO and can range from 60 days to 6 months. If a defendant or offender tests positive, more frequent urine collections may be required.
- (2) The vendor shall collect random urine specimens when the defendants/offenders have less than 24 hours prior notice that a urine specimen is to be submitted.
- (3) The vendor shall not alter a randomly scheduled urine collections without the approval of the USPO/USPSO. The frequency of random urine collections

shall be determined and authorized by the Program Plan (Probation Form 45).

j. **Urine Specimen Collection Records and Reports**

(1) **Urinalysis Log**

The vendor shall maintain a log approved by the USPO/USPSO for all urinalysis specimens collected which shall indicate:

- (a) Defendant and/or offender's name and PACTS number.
- (b) Collection date
- (c) Chain of custody (bar code) number.
- (d) Drugs or medication prescribed and date taken.
- (f) Collector's initials.
- (g) Special testes) requested, and
- (h) Test results

**NOTE:** Allowing defendants/offenders to see the names or signatures of other defendants/offenders violates federal confidentiality regulations regarding disclosure of drug or alcohol treatment records.

k. **National Contract Urinalysis Laboratories**

Urine specimens are analyzed under a separate contract with the AOUSC. The vendor shall notify the USPO/USPSO of positive specimen results reported from a national laboratory within 24 hours.

l. **Onsite Screening Urinalysis Laboratory**

Urine specimens are analyzed by onsite laboratories at some locations in probation and/or pretrial services offices. Specimens sent to these facilities shall be processed in the same manner as listed above. Upon award, the USPO/USPSO shall notify the vendor that it uses an on-site testing laboratory and provide supplies and instructions for the shipping and handling of specimens.

2. **Urine Collection/Testing – Non-Instrumental Drug Testing Devices (1011):**

When using NIDT devices provided by the USPO/USPSO the vendor shall use the previously stated general specimen collection procedures and the following testing procedures:

a. **Urine Testing**

The vendor shall:

- (1) Ensure that all vendor authorized staff receive approved training in the manufacturer's procedures and the district guidelines for the use of NIDT devices before conducting tests; such training shall be documented.
- (2) Test for drug(s) only as directed by the USPO/USPSO, using only devices provided by the USPO/USPSO.

- (3) Perform test(s) according to the manufacturer's procedures with the defendant/offender observing the process.
- (4) Record the NIDT test result on a NIDT log approved by the USPO/USPSO.
- (5) Notify the USPO/USPSO of positive specimen results within 24 hours.
- (6) Send specimens to the national drug testing laboratories under the explicit instruction of the USPO/USPSO, using the procedures outlined on Section 1 g above.

**b. Specimen Processing**

- (1) If the test(s) is negative the vendor shall:
  - (a) Discard the test device (test device is not considered biohazardous waste and can be disposed of in the trash unless visibly **contaminated with blood**). Check local state requirements on disposal of NIDT devices.
  - (b) Discard urine specimen. Urine is to be flushed down the toilet. Rinse the emptied bottle. It is not considered biohazardous waste and can be disposed of in the trash.
  - (c) Log the result in the approved urinalysis log mentioned above.
- (2) For presumptive positive test result(s), the vendor shall:
  - (a) Remind the client that the test(s) result is presumptive, and will be reported to the assigned officer.
  - (b) At the direction of the USPO/USPSO, prepare specimen to send to the national laboratories by transferring the specimen to a national laboratory bottle and completing the Chain of Custody Form. Once this is completed, the Vendor shall discard the NIDT device. Send the specimen to the national laboratory within forty-eight hours unless otherwise instructed by the USPO/USPSO.
  - (c) Within 24 hours notify the officer by telephone and/or fax of the positive presumptive test result(s), and document that the notification was done in the defendant/offender's file.

If the defendant/offender refuses to sign the Chain of Custody form, the vendor shall:

- (d) Make a notation on the Chain of Custody form and instruct the defendant/offender to personally contact his/her assigned USPO/USPSO immediately to provide notification of their refusal to sign the form.
- (e) Within 24 hour, notify the USPO/USPSO of the defendant/offender's refusal to sign the form.
- (f) Ensure collectors do not insist that the client sign the Chain of

Custody Form, and record the client's refusal to sign on the Chain of Custody Form and the defendant/offender file (the specimen will be tested by the national laboratory even if the client fails to sign the form).

c. **Drug Testing Invoicing (NIDTs)**

The vendor shall:

- (1) Invoice only one unit of NIDT unit (PC 1011) per defendant/offender per collection. For example, if the NIDT device does not provide a test result, or the test result is not readable, another NIDT device will be used at no additional charge to the government. This may occur approximately five percent of the time when using NIDT devices. The vendor shall include the "multiple test" factor in the unit price for this service.
- (2) Charge only one NIDT (PC 1 0 11) to the Government if the specimen is also sent to a national laboratory. Charging for **1010** (urine collection) and 1011 for the same specimen is not permitted. The vendor may include the additional work related to sending a specimen to a national laboratory and reporting the result in the unit price (PC 1011) for this service. It is estimated that approximately one out of ten samples will be prepared for mailing to a national laboratory, with less than that amount actually being sent due to the anticipated admission rate.

3. **Sweat Patch Application and Removal (1012):**

The sweat patch is a white absorption pad, covered with a unique polyurethane dressing that acts as a storage device for illicit drugs released from the body in sweat. It is used to monitor offenders for extended periods of time, or for defendants/offenders who have difficulty voiding due to documented medical conditions. Patches will be supplied by the USPO/USPSO. If USPO/USPSO via Form 45 approves the vendor's use of the sweat patch via the Form 45, the vendor shall use the following procedures for the application, removal, and testing process of the sweat patch:

a. **Staff Training**

The vendor shall ensure that their staff is trained in the sweat patch procedures before applying or removing a patch. The staff should view the video presentation, read the sweat patch training manual provided by the USPO/USPSO, and perform the procedures contained in this section of the statement of work. The vendor shall document training for personnel it authorizes to apply and remove sweat patches.

b. **Storage.**

The vendor shall:

- (1) Ensure patches are stored in a secure area with access limited to only collectors or other authorized vendor personnel.
- (2) Ensure patches are stored at room temperature between 36 to 78 degrees Fahrenheit.

c. **Safety Precautions.**

The vendor shall:

- (1) Ensure the integrity of the collection process and make every effort to eliminate the possibility of external contamination. Staff shall wear gloves while applying and removing the patch and avoid touching the collection pad during the process.
- (2) Ensure that when the defendant/offender is of the opposite gender than the collector a witness is present during the application/removal of the sweat patch.

d. **Sweat Collection and Duration of Sweat Patch Use**

The vendor shall:

- (1) Ensure that the patch is worn for maximum of one week, and a minimum of 24 hours.
- (2) If a defendant/offender reports with a sweat patch which is falling off, has fallen off, or is missing, immediately collect a urine specimen and report the problem to the officer within 24 hours. The vendor shall not continue to use the sweat patch for defendants/offenders who continue to experience difficulties in retaining the patch on their skin. The vendor shall report discontinued use of the sweat patch to the USPO/USPSO.

e. **Sweat Patch Application**

The vendor shall:

- (1) Apply the patch to the upper arm, the lower back, or the front kidney area. Ask the defender/offender where they would prefer to have the patch applied. Avoid placement on abraded, cut, irritated or sensitive skin.
- (2) Direct the client to clean the area with soap and cool water or with a disposable towelette. An abrasive pad may be used to clean dry skin and dirt.
- (3) Wearing disposable gloves, the collector shall clean the skin by using an alcohol wipe. Repeat the cleaning if wipe is dirty. Allow the area to dry for approximately 90 seconds to avoid alcohol burns to the skin.
- (4) Have the defendant/offender flex the upper arm for arm placement, bend forward slightly from the waist for back placement, or bend slightly backward from the waist for front kidney placement. Place patch on skin and firmly press into the skin to promote proper adhesion. Pull parallel to the skin when removing the paper border, not outward and up from the patch.   - (e) *Restriction on disclosure and use of data* Offerors that include in their offers data that they do not want disclosed to the public for any purpose, or used by the judiciary except for evaluation purposes, shall:
    - (1) mark the title page with the following legend:

This offer includes data that shall not be disclosed outside the judiciary and shall not be duplicated, used, or disclosed-in whole or in part-for any purpose other than to evaluate this offer. If, however, a contract is awarded to this offeror as a result of-or in connection with-the submission of this data, the judiciary shall have the right to duplicate, use, or disclose the data to the extent provided in the resulting contract. This restriction does not limit the judiciary's right to use information contained in this data if it is obtained from another source without restriction. The data subject to this restriction are contained in sheets [*insert numbers or other identification of sheets*]; and

- (2) mark each sheet of data it wishes to restrict with the following legend:  
Use or disclosure of data contained on this sheet is subject to the restriction on the title page of this offer.
- (f) *Contract award*
- (1) The judiciary intends to award a contract or contracts resulting from this solicitation to the responsible offeror(s) whose offer(s) represents the best value after evaluation in accordance with the factors and subfactors in the solicitation.
  - (2) The judiciary may reject any or all offers if such action is in the judiciary's interest.
  - (3) The judiciary may waive informalities and minor irregularities in offers received.
  - (4) The judiciary intends to evaluate offers and award a contract without discussions with offerors (except clarifications). Therefore, the offeror's initial offer shall contain the offeror's best terms from a cost or price and technical standpoint. The judiciary reserves the right to conduct discussions if the contracting officer later determines them to be necessary. If the contracting officer determines that the number of offers that would otherwise be in the competitive range exceeds the number at which an efficient competition can be conducted, the contracting officer may limit the number of offers in the competitive range to the greatest number that will permit an efficient competition among the most highly rated offers.
  - (5) The judiciary reserves the right to make an award on any item for a quantity less than the quantity offered, at the unit cost or prices offered, unless the offeror specifies otherwise in the offer.
  - (6) The judiciary reserves the right to make multiple awards if, after considering the additional administrative costs, it is in the judiciary's best interest to do so.
  - (7) Exchanges with offerors after receipt of an offer do not constitute a rejection or counteroffer by the judiciary.
  - (8) The judiciary may determine that an offer is unacceptable if the prices proposed are materially unbalanced between line items or sub-line items. Unbalanced pricing exists when, despite an acceptable total evaluated price, the price of one or more contract line items is significantly overstated or understated as indicated by the application of cost or price analysis techniques. An offer may be rejected if the contracting officer determines that the lack of balance poses an unacceptable risk to the judiciary.
  - (9) If a cost realism analysis is performed, cost realism may be considered by the source selection authority in evaluating performance or schedule risk.

- (10) A written award or acceptance of offer mailed or otherwise furnished to the successful offeror within the time specified in the offer shall result in a binding contract without further action by either party.
- (11) The judiciary may disclose the following information in postaward debriefings to other offerors:
  - (i) the overall evaluated cost or price and technical rating of the successful offeror;
  - (ii) the overall ranking of all offerors, when any ranking was developed by the judiciary during source selection;

  - (iv) for procurements of commercial items, the make and model of the item to be delivered by the successful offeror.
